Market share AutoCAD is the most widely used CAD program in the United States and the world. According to the Software Marketer's Big Report, released by the NPD Group, AutoCAD was installed on more than three million PCs and Macs in the United States alone in 2010, up 19% from the previous year. In 2010, Autodesk also acquired International CAM Corporation (Icam), and in September 2015 Autodesk rebranded Icam as AutoCAD Innovation Group. According to analyst firm Gartner, Autodesk had a total market share of 51.9% for the third quarter of 2010, up from 50.2% in the second quarter and from 48.7% in the first quarter. In 2013, Autodesk was the most popular vendor, accounting for about 30% of all commercial (CAD) software licenses sold in the United States. In August 2019, the company sold a new, younger AutoCAD brand to Acme Engineering with the promise that it will be easier for a customer to get support for it. The name of the new brand is AutoCAD and the company logo is similar to AutoCAD. For the three months ending September 30, 2014, Gartner reported Autodesk to be the largest supplier of CAD software, a position that it has held for the previous six years. a1d647c40b
